

Book Options for CHM 151/150/152

This year, the Chemistry Department at GCC is updating to a new version of the General Chemistry textbook. All page numbers and references will refer to the McMurry/Fay 5th edition (brown/blue or the white cover) book. If you have a 4th edition book (green cover), most of the material will be the same, but it will be your responsibility to make sure you read the appropriate sections for lecture and lab (page numbers and section numbers might be slightly different).

The options below outline various packages you can purchase depending on your needs and budget. All students must have some version of the book (5th edition is preferable) and a 24-month code for MasteringChemistry that will be used for online homeworks.

- 1) If taking the class for the first time, you can purchase a new custom book package (McMurry/Fay, 5th Edition, brown/blue cover) in the book store. This bundled package will contain a key code that you will use to register for MasteringChemistry, an online homework, tutorial, and learning tool.
 - If you retake the course at the end of the semester, you may keep the book and the code for MasteringChemistry. The code will be good for 24 months from the date of purchase.
 - The brown/blue cover is a custom edition for GCC only. You will not be able to find this version online or at another bookstore. It contains the same information and page numbering as the white cover 5th edition, but a few chapters have been removed.
- 2) If you are retaking the course, you may continue to use an older version of the textbook (McMurry/Fay, 4th Edition, green cover) but you will need to separately purchase a code for MasteringChemistry. This code will be good for 24 months.
- 3) Purchase an online textbook and MasteringChemistry code. If you choose this option, the book is only accessible for the same 24 months that the MasteringChemistry code will be. If you want to keep your chemistry book for future reference, this is NOT the option you want to choose.
- 4) Purchase a new or used McMurry/Fay 4th edition (green cover) OR a new or used McMurry/Fay 5th edition (white cover) book from an online source (see the chemistry webpage for links and information) AND purchase a MasteringChemistry code that will be good for 24 months from the date of purchase.

Dear Student:

In this course you will be using MasteringChemistry™, an online tutorial and homework companion to your textbook.

What You Need:

- ✓ **A valid email address**
- ✓ **A student access code** (Comes in the Student Access Kit packaged with your new textbook. Otherwise, you can purchase access online at www.masteringchemistry.com.)
- ✓ **The zip code for your school: 85302**
- ✓ **A Course ID:** MCCLARK19694

Student Registration

- Go to www.masteringchemistry.com. If asked to identify your text, select the title and edition of your course textbook.
- Click **Register** to register for MasteringChemistry with your student access code. (*Don't have a new access code? You can purchase access by clicking Buy Now. Your purchase path will differ slightly from the registration instructions that follow.*)
- Agree to the **License Agreement** and **Privacy Policy** by clicking the checkboxes.
- Leave "**No, I am a New User**" selected, then type in your **Access Code** in the fields provided. (Enter one "word" per box, without the dashes.)
- Enter your **School Zip Code**, select your **Country** and click **Next**.
- Enter your **Name** and **Email** and select **Your School**.
- Create a personal **Login Name** and **Password**, answer the **Security Question** and click **Next**.

Upon completion, the **Confirmation & Summary** page confirms your registration information. This information will also be emailed to you for your records.

Enroll in Your Instructor's Course and/or Access Self-Study Area

If you receive a Course ID from your instructor, you will use this to "enroll" in your instructor's MasteringChemistry online course so that you can be included in his or her gradebook. If you don't receive a Course ID, you may still be able to access self-study resources.

- Go to www.masteringchemistry.com. If asked to identify your text, select the title and edition of your course textbook.
- Under **Returning User?**, enter the login name and password you created, then click **Log In**.
- Either enter your instructor's MasteringChemistry **Course ID** or click **Proceed to Self-Study Area** (if an independent self-study option is available for your textbook). Your instructor *may* also request that you enter a special Student ID for this course, either now or later. If so, be sure to enter this information **EXACTLY** as your professor has instructed.

Congratulations! You have completed registration and have enrolled in your MasteringChemistry course. **To access your course from now on:** Simply go to www.masteringchemistry.com, select your textbook if prompted, and enter your login name and password.

System Requirements & Support

- **To effectively use the resources on this website, check its system requirements:**
Log in to www.masteringchemistry.com and click the "System requirements" link at the bottom of the home page. In particular, you may need to check that the latest version of the Flash player is available to your browser.
- **Customer Technical Support:** <http://www.masteringsupport.com>
